PROFESSIONALSUMMARY

I create engaging and responsive user experiences by building modern frontend applications with clean UI and smooth functionality. Skilled in React.js, JavaScript (ES6+), Tailwind CSS, and REST API integration. Passionate about creating scalable, user-friendly interfaces while continuously learning new technologies and improving development efficiency with AI.

PPROJECTS

• Naukri Clone – A Job Search Platform

Tech: React.js, TailwindCSS, Toolkit, Firebase.

- Built a responsive job portal UI with modern frontend design.
- Implemented job search, filtering, and dynamic API integration.
- Developed reusable components and optimized state management.
- Deployed the project on Vercel for fast and smooth performance.

• Digital Agency Website – A Frontend Agency Platform

Tech: React.js, Tailwind CSS, Framer Motion, Responsive Design, Netlify.

- Built a modern agency website with responsive and interactive UI design.
- Developed sections for services, portfolio, team showcase, and contact form.
- Implemented smooth animations and reusable frontend components for better user experience.
- Optimized the website for mobile responsiveness and fast performance deployment.

• MediCore OS –Hospital Management System

Tech: React.js,TailwindCSS, Axios.

- Built a hospital management system with secure authentication and role-based access control.
- Developed patient, appointment, and staff management features with Redux Toolkit state management.
- Implemented scalable REST APIs and MongoDB schemas for efficient hospital data handling.
- Enhanced UX with responsive UI, reusable components, and modern Tailwind CSS layouts.

TECHNICALSKILLS

• Frontend:

JavaScript(ES6+), React.js, TailwindCSS, Responsive Design, Component-based Architecture, Redux, Toolkit.

• Backend & Databases:

Learning Express & MongoDB.

• Tools & Platforms:

Git, GitHub, VSCode, Postman, Netlify, Vercel, Render, Framer-motion, Chrome DevTools.

EDUCATION

FullStack Development Program – Dice Academy,Delhi
